- **SERVICES**

Our goal is to build long term customer relationship built on mutual satisfaction. Our principal values are therefore integrity and personal services. With us there will be no communication problem. We guarantee that you will prompt answer on your inquiry and appreciate this opportunity to work with you.

- **MODERN INFRASTRUCTURE**

We are empowered with a modern infrastructure spread over a vast area. Our infrastructure is incorporated with various units like production unit, quality assurance unit, research and development, etc. All the units are administered by highly skilled professionals, who work hard to ensure total customer satisfaction. We have installed all the necessary machines and equipment in our production unit to ensure a hassle free process. Our machines are featured with high productivity, and user friendliness. Our experienced professionals are well versed in handling all the equipment. They maintain all the machines on regular basis in order to assure their high productivity. We have purchased all our machineries from reputed suppliers. Some of the machines we have installed in our production unit are:

- HEADING MACHINE
- SLOTTING MACHINE
- THREADING MACHINE
- POINTING MACHINE
- LATHE MACHINE
- SHORTING & QUALITY CONTROL MACHINE

We have a capacious warehouse, which is facilitated with world class conditions. It ensures safe and easy storage of our product range. We have employed skilled warehouse professionals, who follow sets of standard storage policies as per international standard of norms and regulations. They also keep exclusive notes of all outgoing and incoming stocks in our warehouse to assure an uninterrupted supply.

- **Quality Confrontation**

“High quality” is an indispensable element of our working system. For our international standard product range, we have achieved the **ISO 9001:2008 certification**. We have a separate quality assurance unit fully equipped with high tech machineries. This unit is administered by skilled and professional quality inspectors, who check the products during every stage of production. Moreover, we have also developed a renowned vendor base to source high quality material. The final delivery process of our products to our clients is also carried out under strict vigilance of our quality inspectors. They check the quality of the end products on the basis of following parameters:

- Finishing
- Polishing
- Design
- Harding etc.
